

ACHIEVEMENTS OF THE COFFEE REFORMS

1. INTRODUCTION

The coffee subsector has been central to the economy of this country since independence. At one time it was a leading foreign exchange earner for the country, a scenario that has since changed relegating it to the number four (4) Foreign Exchange earner.

Subsequently, the government embarked on a reform journey to reposition the sub sector to its lost position. A lot of progress has been made on this journey with clear deliverables as indicated here below: -

4. GROWER REGISTRATION

To support devolution, the Directorate came up with a new coding system for coffee growers that is aligned to the devolved units. This has already been rolled out to the counties for implementation by capacity building them to carry out the registration. This initiative has been well embraced and the counties are moving on with it as they register new players.
